## About Dr. Deborah Martin

Today, the options in the field of Medical Aesthetics are often complicated, and can easily become overwhelming. At Dr. Deborah Martin's Vein & Medical Aesthetics Clinic you will find professional and experienced medical staff who are ready to help you make an informed decision about a wide variety of medical and cosmetic choices.

Dr. Deborah Martin is a medical physician, as certified by the College of Physicians & Surgeons of Ontario, who brings with her more than twenty years of diversified experience in Emergency Care and Medical Aesthetics. Dr. Martin graduated from the School of Medicine at Queen's University in 1986, and then went on to specialize in Sclerotherapy by studying with physicians in Houston, Texas, San Diego, and San Francisco, CA. Dr. Martin's Vein Clinic was first opened in 1995. Although not initially drawn to Medical Aesthetics, Deborah Martin came to empathize with the physical and emotional effects that the passage of time has on all of us. Most of her patients were women in their thirties or forties and fifties, like herself, who had raised their families and were looking for a new lease on life. The transition to full Medical Aesthetic Services was an easy one for this mother of three to make.

Dr. Martin has also trained over 400 medical professionals from around the world, and she has been approved and accredited by the Ontario College of Physicians and Surgeons as an internationally known and respected expert and trainer in the fields of Sclerotherapy, BOTOX and Aesthetic Filler, and Laser Skin Rejuvenation. All training is conducted through the assistance of volunteer patients.

All members of Dr. Martin's team strive to provide their clients with the best options in the field of medical aesthetics while always taking into consideration the value of the investment in their procedures.

***The clinic's mission: To replenish youth in "middle age".***

This has become an attainable goal for many of the Clinic's clients, who have consistently received quality care and professional services in the treatment of Varicose and Spider Veins, BOTOX and Fillers, Laser Hair Removal, Skin Rejuvenation, IPL Photofacials, and Hyperhidrosis.
